

B
is for Bag

14 billion bags are used a year in the UK. Support the **'B is for bag'** campaign and reduce this number.

14 Billion plastic bags are used in the UK per year

Help Thornbury reduce this number by supporting the
“**BAGSY THIS ONE**” campaign and collecting your bag
for life from any shop on the high street.

THORNBURY®

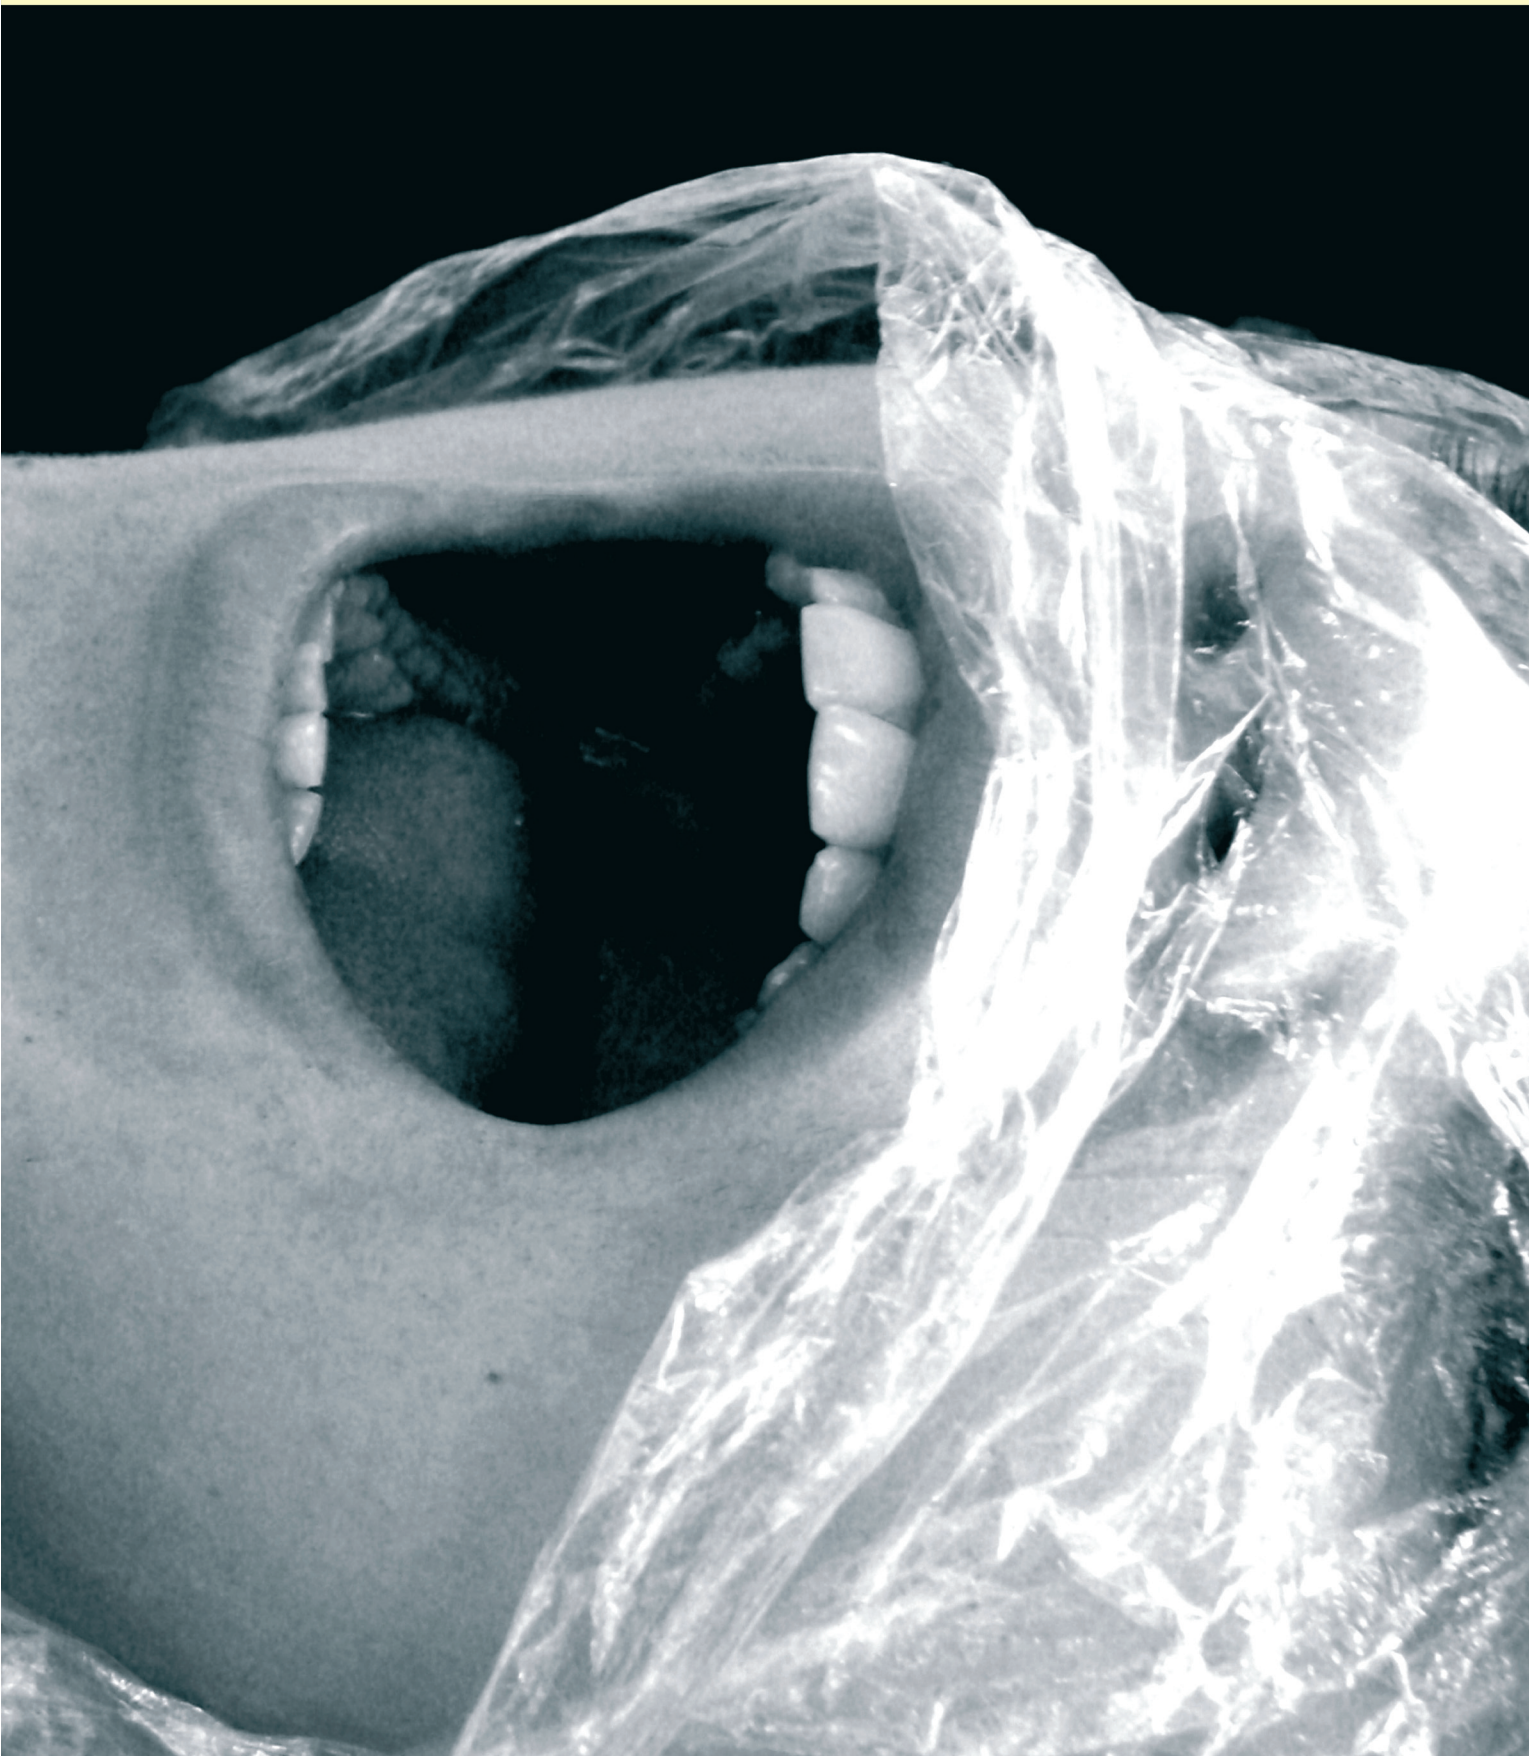

This is a campaign to help Thornbury cut down on the use of plastic.

This poster is to make you understand the seriousness of our situation and the consequences that we will all have to face not now not tomorrow but some day.

Make a difference now buy a bag for life or make a donation to www.suffocatingthornbury.com

Bags don't grow on trees...

So why do they end up there?

ONE

ONE BAG

TRILLION

IS A MASSIVE HUGE NUMBER
AND IS THE AMOUNT OF PLASTIC BAGS
USED IN THE WORLD EVERY YEAR

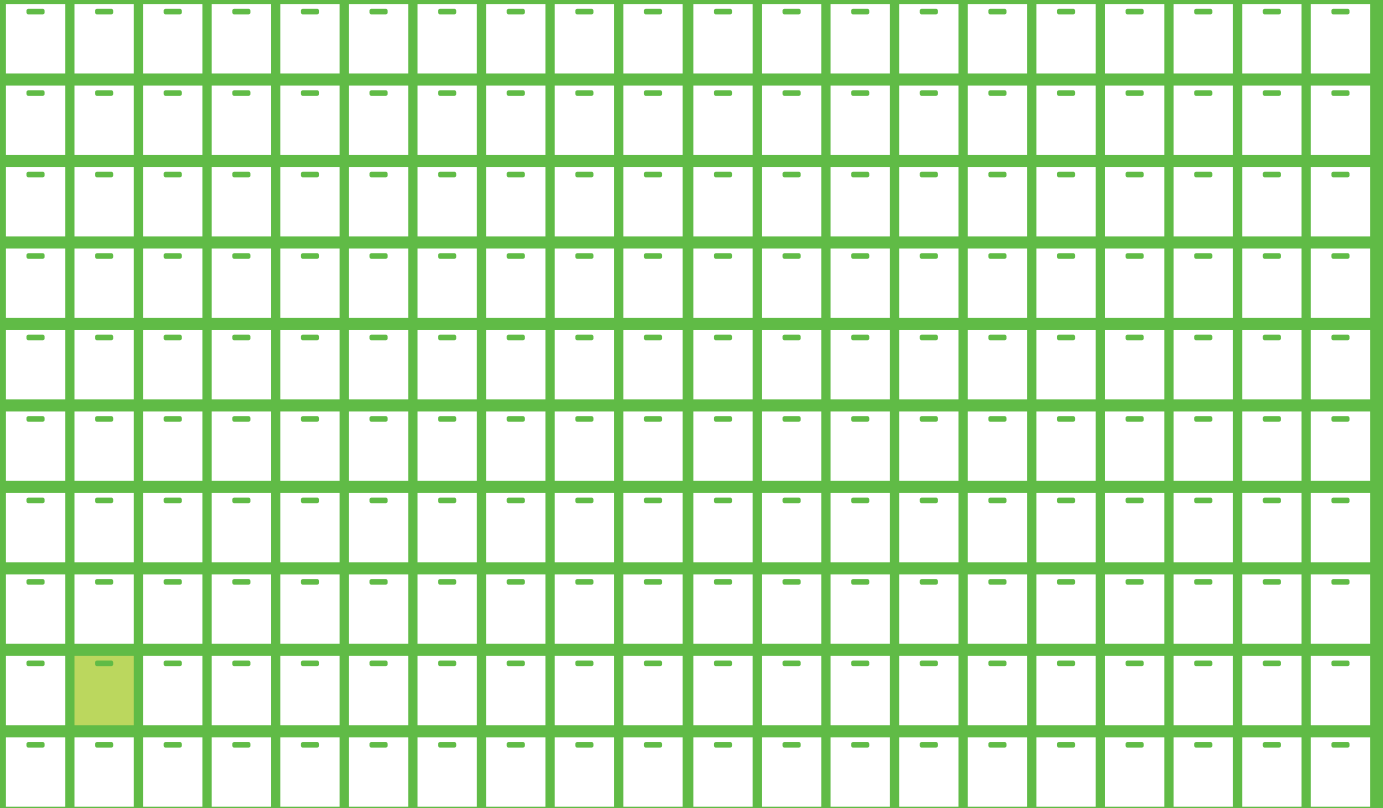

ONE

IS A SMALL NUMBER
IT COULD BE THE AMOUNT OF BAGS
USED BY EVERYONE IN A YEAR
IF WE ALL ONLY USED ONE BAG

Pick up your 
from shops in Thornbury
where you see the logo...

One bag, one big difference...

Only **1** in 200 plastic bags are recycled.

We've only got one world, and there is certainly only one Thornbury.

So why not one bag?

Simple really.

one world, one Thornbury... one bag

Pick up your **one** bag from participating shops

Plastic bags...

Pick them up, fill them with shopping, take it home, stick it in the cupboard, then eventually take it back to the supermarket to put it in the bin marked 'recycle'.

**Hmmm, sounds easy doesn't it?
Recycling plastic bags. Job done.**

Not quite. Only 1 in 200 bags actually get recycled.

Shame isn't it?

We've only got one world, and there is certainly only one Thornbury.

So why not one bag?

Simple really.

one world, one Thornbury... one bag

Pick up your **one** bag from participating shops

**Plastic bags don't
grow on trees**

**but they often
end up in them...**

**Around 5 billion plastic bags
end up in the environment
each year as litter.**

There's NO NEED
For a

Just
CARRY A BAG
